

2018

**TRENDS & THEMES FROM  
SALONE DEL MOBILE.MILANO**

# CONTENTS

The 57th edition of Salone del Mobile.Milano closed on 22nd April 2018 having seen more than 434,500 people walk through its halls in six days.

1841 exhibitors showcased their products at Salone Internazionale del Mobile, the International Furnishing Accessories Exhibition, Eurocucina and the International Bathroom Exhibition. In addition, 650 designers under the age of 35 were featured at SaloneSatellite.

We hope you enjoy a walk through this amazing show and find inspiration in some of our favourite finds.

4

Salone Bagno  
(Bathrooms)

Basins, baths, showers, tapware, toilets and vanities celebrate shape and form, play with textures and utilise interesting colours and materials.

8

EuroCucina  
(Kitchens)

Technology plays a significant role as design makes use of shapes and textures to create interest. Elements of the kitchen are often hidden.

12

Future Technology for the  
Kitchen (Appliances)

From professional cooking appliances making their way into residential kitchens to appliances you can control with a smart device.

# BATHROOMS

## BASINS

### THE.ARTCERAM →

The.One washbasin. New thin-rim console with folding Wood-Skin® sheets that unfold to create a flat surface. [artceram.it](http://artceram.it)

### KREOO ↓

Bubbles washbasin. Designed by Marco Piva. Each piece carved from marble and highlighted with a metal strip. Name inspired by the shape of soap bubbles. [kreoo.com](http://kreoo.com)

### AZZURRA ↘

Hera collection. Designed by Studio Libeskind. Inspired by the shape of Neoclassical marble sculptures. Off-set geometry and asymmetrical volumes. [azzurraceramica.it](http://azzurraceramica.it)

### GLASS DESIGN ↘ ↘

Ettore Sottsass basin. Fashioned from serigraphed glass with a fusion of form and decoration that highlights the pure geometry of the circle. [glassdesign.it](http://glassdesign.it)

# BATHROOMS

# BATHS

## ANTONIOLUPI ↓

Eclipse bath. Designed by Marco Di Paolo. Freestanding or back to wall. Voluminous ergonomic egg shape. New version in Carrara marble. Perfectly integrated practical shelf — technical yet aesthetic. [antoniolupi.it](http://antoniolupi.it)

## BETTE →

Loft Ornament bath. Designed by Tesseraux + Partner. Won a 2018 German Design Award. Freestanding bath made from glazed titanium steel. Geometric effect created by four conically tapered surfaces. [bette.de](http://bette.de)

## ARBI ↘

Belt collection. Designed by Meneghello Paoletti Associati. Collection includes freestanding bathtub and five washbasins. “Belt” refers to the unusual external edge that seems “squeezed”. [arbiarredobagno.it](http://arbiarredobagno.it)

# BATHROOMS VANITIES

## NOVELLO →

Craft 2.0 collection. Designed by Stefano Cavazzana. Features integrated handle on the new framed door inspired by Japanese shoji walls. Basin finishes include cement tints, natural stone and Laminam shades. [novello.it](http://novello.it)

## ANTONIO BULLO WORKSHOP ↓

UB Collection. Main decorative motif is the linear parallel lines that create a visual and tactile response. Balance of strong lines and curved edges. Available in Canaletto walnut, pure white or a range of colours. [antoniobulloworkshop.it](http://antoniobulloworkshop.it)

## ARLEX ITALIA ↘

Lay system. Designed by Marco Zito. Utilises a stainless steel frame, similar to a bookcase, then customised items are added to create different combinations. Items include a range of washbasins, shelves, mirrors, lighting, closed containers and doors. [arlexsrl.com](http://arlexsrl.com)

# BATHROOMS TAPWARE

## AXOR ↓

My Edition. Created in collaboration with Phoenix design studio. Features a wide range of plates including metal, wood, marble, and leather. Combined with the AXOR FinishPlus range of colors to create unique pieces. [axor-design.com](http://axor-design.com)

## NEWFORM ↘

O'Rama mixer. Sinuous lines and harmonious design. Balance between aesthetics and performance. Available in six metal finishes and six PVD finishes in addition to the standard colours. [newform.it](http://newform.it)

## HANSGRÖHE ↘ ↘

PowderRain shower. Innovative nozzles: instead of only one spray outlet per nozzle, PowderRain has six fine openings to create a spray which feels like a warm summer rain. [hansgrohe-group.com](http://hansgrohe-group.com)

## GESSI ↓

Inciso by David Rockwell. Made from solid brass. Available in a number of finishes, including black, nickel and bronze. Inspired by early plumbing fixtures and refined modern metalwork. [gessi.it](http://gessi.it)

## ← LEICHT

“Room in Room” concept. Completely integrates the kitchen into the living space via a walk-in room which, from the outside, appears to be a simple unit. Its external walls house a range of living room elements while the interior conceals a variety of functional storage that can be customised to suit individual requirements.  
*leicht.com*

## ↓ ERNESTOMEDA

Inside System. A system of storage units/walk-in cupboards which can be customised on the inside with various types of fittings. Free-standing storage units that open out completely, with a system which rotates the doors and moves them sideways to stow in a pack at the sides, freeing up the entire opening to allow access to the interior.

# KITCHENS

### ARRITAL ↑

AKB\_08 kitchen. Conceived by Arrital's designer, Franco Driusso, and chef, Andrea Berton, to take the functionality of a professional kitchen into people's homes, enriched by contemporary design. Features the multifunction ergonomic stainless-steel "Twice" work-top. [arritalcucine.com](http://arritalcucine.com)

### SNAIDERO ↗

Vision kitchen. Designed by Pininfarina Design. The design concept encapsulates the idea of a fluid domestic space. The surfaces have a sensuous flow while the volumes are carefully managed to reflect Pininfarina's distinctive design aesthetic. [snaidero.it](http://snaidero.it)

### ZAMPIERI →

Irori kitchen. Design Stefano Cavazzana. Inspired by an irori — an ancient Japanese domestic fulcrum built in the floor which was used for heating and cooking. Features a wooden door declination with a typical frame of oriental tradition highlighted with metal furnishings designed as bamboo canes. [zampiericucine.it](http://zampiericucine.it)

**VALCUCINE →**

Artematica kitchen. Designed by Gabriele Centazzo. Features a new 14cm worktop with an integrated sink. Fitted with Logica Theca, specially equipped storage unit with a single door that opens automatically. [valcucine.it](http://valcucine.it)

**ROSSANA ↓**

K-In/K-Out kitchen. Designed by Massimo Castagna. K-In and K-Out look identical but one is for indoors and one for outdoors. Large cover tops slide in both directions, hiding the kitchen's working area. First seen in 2016, released this year with expanded finishes. [rossana.com](http://rossana.com)

**DADA ↘**

VVD kitchen. Designed by Vincent Van Duysen. A handle-free kitchen that contrasts the slender side and end panels with thick worktops. The design seeks to interplay solids and voids to create a dynamic and sophisticated kitchen. [dada-kitchens.com](http://dada-kitchens.com)

# KITCHENS

## VENETA CUCINE ↓

Lounge kitchen. An innovative kitchen system created as an extension of the Essence line. The design seeks to make the kitchen area even more comfortable, functional and attractive. A combination of materials enhances the aesthetic. Seen here in elegant Abete Ossidato wood and gleaming, futuristic Metallo Liquido Bronzo finish. [venetacucine.com](http://venetacucine.com)

## STRASSER STEINE →

ST-ONE luxury kitchen island. Showcased in 2018 with new stone finishes, a new interior and new dimensions — seen here in Iceberg Leather Look finish. The main body and the drawers are made from solid wood and a new type of leather in beige is now available as a drawer lining. [strasser-steine.at](http://strasser-steine.at)

## TM ITALIA ↓

Rua kitchen. Designed by Ruadelpapavero. A sophisticated reinterpretation of the industrial style of large lofts. Strong metallic structural components. The three-dimensional design on the doors creates a linear milled effect which is reflected by the Scannellato Belga glass pattern of the display cabinets. [tmitalia.com](http://tmitalia.com)

**FISHER & PAYKEL INTEGRATED COLUMN REFRIGERATOR/FREEZER**

*fisherpaykel.com*

Available in three different sizes (18", 30" and 24") with white or stainless steel interior. Can be installed separately or together. Fits flush with minimal gaps and comes panel-ready with a choice of either stainless-steel accessory doors or can be fully customised with bespoke panels and handles. Variable Temperature Zones allow two zones in the same column.

**FALMEC SPAZIO RANGEHOOD**

*falmec.it*

180 cm island body with full-length satin glass shelves on which it's possible to put tools and kitchenware, there is also a ladles hanger and a LED system that lights the whole worktop. Accessories kit includes USB ports; downward power sockets where devices (such as tablets, mobiles and MP3s) can be charged while having them at your fingertips; and a tablet support.

# APPLIANCES

**SMEG BLAST CHILLER**

*smeg.com.au*

Available in Linea, Classica and Dolce Stil Novo versions. Pronto function keeps dishes at refrigerator temperature then heats up at a preset time. Includes automatic programs for beginners and manual programs for expert users. Also features hot functions, including dough proving, which can be customised for up to three steps with different durations and temperatures.

**BOSCH PERFECT DRY DISHWASHER**

*bosch-home.com.au*

Zeolite — a natural mineral — transforms humidity into dry heat which means dishes and crockery, including the plastic items, are thus ready to be put away as soon as the washing cycle has finished. The 40° Glass program cleans even the most fragile glasses delicately. The 50° Silence program is perfect for nighttime.

# FUTURE TECHNOLOGY FOR THE KITCHEN

## ELICA NIKOLATESLA SWITCH

[elica.com](http://elica.com)

Design by Fabrizio Crisà. Induction and extraction are combined in a single product. Cooking co-exists with extraction on a large ceramic glass surface. A central ring with cast iron effect and a glass circle, completely flush with the cooktop surface, cleverly conceal the extraction system. By rotating this circular element, NikolaTesla Switch extraction is activated.

## IRINOX WAVE WATER DISPENSER

[irinoxhome.com](http://irinoxhome.com)

Domestic water dispenser, connected directly to the local water mains; it provides fresh, natural, good-quality ambient, sparkling or chilled (choice of three temperatures) water. Special filter that removes up to 99% of impurities with diameters up to 0.5 micron, including asbestos fibres and other microorganisms found in water.

## CANDY WATCH & TOUCH OVEN

#20194738

Features the entire oven door as a Total Control Screen, video-recipes pre-loaded and shown on the oven door, Suggested Cooking section with more than 70 programs, Personal Programs section and a camera integrated into the door to allow an optimal view of the inside of the cavity — even on a smart device. Multi-function with 80-litre maxi cavities in standard dimensions.

## GAGGENAU EB333 OVEN

[gaggenau.com](http://gaggenau.com)

Remodeled version of the renowned 90 cm wide oven that offers modernised design and functionality. Embodies Gaggenau's design philosophy of timeless craftsmanship meets innovative design. New design feature; the door. A single piece of 3 mm thick stainless steel with new technology that provides soft opening and closing. Revised cavity design and new TFT control module.
